

The mobile Bon-fire® kitchen

Original Danish Design

Spend more time with your family

With the Bon-fire kitchen, you have the opportunity to cook delicious food in a different way.

At home on the patio, on the beach, on picnics – anywhere. It is nice and easy, - and with a Bon-fire you can cook and fry at the same time. Grill the steaks on the grill grid, while the potatoes boil in the stew pot. – Or fry the sausages on the barbecue pan while the kids make breads on sticks over the fire. Finish the evening with a nice and warm cup of coffee or tea – of course made in the Bon-fire coffee/tea pot – while you watch the sun goes down.

Patina

Patina over time. This results in the rusty surface.

Bon-fire Brazier, Ø70 cm in steel, H: 14 cm
100329

Bon-fire Brazier "2019" in steel
H: 30 cm
100343 Ø70 cm
100350 Ø80 cm

Bon-fire Brazier, Ø68 cm w. chrome plated legs (10 cm), black enamel
100237

Bon-fire Brazier, Ø68 cm w. long legs (50 cm), incl. fittings for tripod, black enamel/powder coating
100305

Bon-fire "CONE" Brazier, Ø77 cm incl. fittings for tripod, H: 49 cm, black powder coating
100336

! The Bon-fire "2019" brazier, the "CONE" brazier and the brazier with long legs can be combined with the Bon-fire Basic Set (Tripod). Then you will attain a very good working height during the cooking.

- every day, all year

Fire is heat. Fire is Bon-fire cooking. Fire is light and live coal. From ancient times, fire has been an important part of humans lives. Fire meant heat and power. It meant warm meals. And fire creates a bright and warm centre in our lives. Fire can be used throughout the year. It is wonderful in the springtime and during the bright summer nights – but winter is also Bon-fire cooking.

First of all you need a perfect place for your fire. You can buy it or you can build it. It can be very fatal for you and others to light a fire at the wrong place during a dry period. In the woods or at a camping site you must use the spaces laid out for a fire, or you can ask the forester/camping site manager about possible fire places.
